There is rank treason in the camp. Know Nothingism is in trouble. The tribes are beginning to experience the tribulations of the wicked Humphrey Marshall utterly repudiates the Journal as his organ, and the Journal says he wouldn't be the organ of Humphrey. Marshall asserts positively that the conduct of the Journal, in advising the Fillmore men of Indiana to vote for an out of visitors as thronged the Society's grounds out of visitors as thronged the Society's grounds abolitionists, finds no response in the breasts of his constituents. And the Journal says that ons constituents.

The one asserts that Kentucky is not abolitionized and the other insists that nineteen-twentieths of the American party of the State sympathise with his advice to the Indiana brethren to elect an abolitionist over a sound, national, and constitutional man. Which is right, the burly Congressman or the nutmeg editor? That is the

He has no idea of being interfered with even by a Congressman. His followers have pampered him up until he imagines his ipse dixit to be the law of the party. He has only to give the command that it may be obeyed-to suggest that certain wings of the party vote for certain men, or a certain set of measures, and to witness them falling into line like drilled soldiers. Indeed, we shouldn't be surprised if the editor had an eye upon Marshall's seat, for some very near and dear friend. Besides, the Journal has more than one editor, and it is said that paper is ambitious, just at this period of Congressional honors. Be that as it may, the redoubtable Colonel hasn't a cocked eye for nothing. If there be a wheel within a wheel, as we and many others | London Quarterly, and De Bow's Reviews; Sill shrewdly suspect, the Colonel will be apt to discover it.

REPRESENTATIVES AND ELECTORS IN 1860 .-The Philadelphia Bulletin estimates that the representative population in 1860, throughout the Union, will be about 31,000,000, divided as follows: Free States, 20,000,000; Slave States, 11,-000,000. The number of representatives being 234, the ratio of apportionment will be about 132,000, and the House will consist of 151 representatives from Free States, and 83 from Slave States. By the present apportionment, there are 144 from Free States, and 90 from Slave States. The Bulletin distributes the members as follows: Southern States, 83; New England States, 23; Middle States, (New York, New Jersey and Penn\_ sylvania) 58, Western States, (including Calitornia and Minnesota,) 70. In case of the admission into the Union of Kansas, Nebraska, Oregon, Utah, or a new State from part of Texas, these figures will be somewhat modified, as each new State will have at least one new memasch new state will have at least one new memasch new state will have at least one new memasch new state will have at least one new memasch new state will have at least one new memasch new state will have at least one new memasch new state will have at least one new memasch new state will have at least one new memasch new state will have at least one new memasch new state will have at least one new memasch new state will have at least one new memasch new state will have at least one new memasch new state will have at least one new memasch new state wil ber, and the older States will lose in a corresponding degree. If the calculations of the Bulletin are correct, the Presidential Electors for 1860 will number 298, of whom 185 will be from Free States, and 113 from Slave States.

MISSOURI SENATORS .- The session of the Legislature now setting will have to elect two U. S. Senators. The prominent Democratic candidates are Governor Polk, Mr. Geyer, and Col. Bogy (all of St. Louis; ) Hon. Jas. S. Green and Ex-Governor Price (both from North Missouri;) Judge Napton and Major Phelps (from the country south of the river.) Less prominent candidates are Colonel Ferd. Kennett, General English, Captain Hudson &c., not to enumerate any but those who have had strong support, and what may be considered practicable claims in certain contingencies. It is generally admitted that if the Democratic party is united they have a sufficient majority on joint ballot to elect both and expenditures: their Senators against the Know Nothings and Bentonites united.

The issue seems to be fairly made up between the editor of the Journal and our member of Congress-the former contending that "nineteen twentieths of the American darty of Kentucky" were earnestly desirous of the election of the Black Republican, Morton, over Willard, the national Democrat, and the latter taking the converse of this position.

Instead of emigrating to St. Louis, as report says it is the intention of the editor to do, would it not be well that he should seek a still more northern latitude. We are sure that he wholly misapprehends the temper and feelings, even of his own party in Kentucky.

A HANDSOME TESTIMONIAL.—The numerous personal and political friends of W. N. Haldeman, Esq., residing in this city, met at the Courier office on Thursday night, at early gas lighting, for the purpose of expressing in some substantial manner, their regard for him as a gentleman, and their appreciation of the noble service performed by his paper in the recent Presidential canvass. The meeting was called to order by the appointment of Captain Swagar as Chairman, when Joseph B. Mr. Haldeman returned his thanks in appropriate language, when several baskets of the best brands of champagne, catawba, etc., etc., were rifled of their gentlemen for the purpose of going into these contents, and the crowd commenced the usual merry making and toast making. About ten o'clock the party dispersed, well pleased with themselves and the rest of mankind.

Many of the negroes were present, and testified with the broad grin and jovial laugh their inward satisfaction with the manner of their past and the hope of their future lives. Not a single unpleasant occurrence took place.

NICARAGUAN MATTERS .- The New York Sun of the 29th ult., learns from a gentleman from Aspinwall, by the Illinois, who is a very competent judge of Isthmus affairs, that it was understood that the advance of Walker upon Rivas, and his continued command of the Transit, indicated that in some way Gen. Henningsen had been relieved, or at any rate, had not been captured at Granada. Any change in favor of the Allies would have been remitted to the European onsuls, at Panama, by the special agents stationed on the Nicaragua line for that purpose.

The delay of the B. WASHINGTON, Jan. 2. In reply to an inquiry of the Senate relative to better security for steam vessels against accident by fire, the Secretary of the Navy has transmit ted a communication from the bureau of construc tion, in which it is said that no variation is required in the ordinary construction of vessels of wood for this purpose, but in that part where oilers and fire rooms are situated a greater de gree of security can be given to this end. It is considered practicable and expedient that boilers for all sea going steamers and all baving their oilers under the main deck or using a forced draught, should have their furnaces surrounded by water, if the boiler or what is termed water ttoms and smoke chimneys extend above the ontinuous deck next over the boilers; that all fire room floors be covered with iron and a similar substance be used for the protection of other parts most exposed to combustion

At noon the doors of he White House were thrown open to the pub ic, and thousands, including prominent states? men, judges, and army and naval officers, enter-ed—the marine band meanwhile performing.—

The reception continued two hours. The heads of departments and many others hospitably en-tertained visitors at their respective residences. Nearly all secular business was suspended, and the public offices closed. The documents recently called for by the Sen-ate are very voluminous, and contain the heretoore suppressed letters of Gen. Scott and the Sec-

There is no truth in the widely circulated re-port that the Judges of the U.S. Supreme Courf nad came to a conclusion in the Missouri Dred

Logtor James Williams:—For several years past, I have been Rable to attacks of Dyspepsia; but never have I been more distressingly afflicted with its symptoms, than within the last few weeks. Indigestion, nervous irritability, despondency, a sense of weight in the stomach, and severe pains in the left side, rendering me, for the time being, truly wretched. Forthantely, I was recommended by a fire and to try your Elixir. I did so, and in less than two weeks, indigestion ceased; pain and nervous degression left me, and appetite, with mental and bodily health, were fully restored. To me the cure seemed almost mirraculous, and my object in writing to you is—a hope that other persons suffering the miseries of Dyspepsia will avail themselves of your efficient remedy.

LOUISVILLE, KY. IN calling the attention of dealers in our line in this maket, we would state that during the last six months our attention has been directed to getting up a large number of new stoves and Grate Patterns, which, added to our already large stock, gives us one of the most extensive and diversified assortanents in the Western maket. Among the number, we would refer to our "Ashland Kentuckian" Cook Stove, (three sizes out). These Stoves have great weight of metal, highly finished and elegant in appearance. They combine all the modern improvements that practical experience has developed. We would invite dealers to call and examine for themselves, and we think in quality, price, &c., they can be suited. Having enlarged our manufacturing department, we can promptly meet all demands. Thankful for the patronage which has been so kindly bestowed upon us, we trust, by street and prompt attention to fill orders, to secure a continuance of it. And the quality of our manufacturing developed work shall be, as heretofore, equal if not superior to the best, and satisfaction given in all cases.
